

As Ceha Logistics, we have more than ten years of experience in shipping business in Turkey. Our company specializes in providing services and solutions for the logistics and supply chain in international trade, we can ensure the best logistical support, especially for sea and land freight all around Turkey.

The main reason that we focused on these is we are also a manufacturer as Ceha Office Furniture. Since the establishment in 1998 Ceha Office Furniture has taken up a more and more leading role on the manufacturers market. In the early years the focus was mainly directed on the European markets, while today the Ceha products find their way all over the world.

To operate our deliveries better Ceha decided to get into the forwarding market at first. But now we are a well known freight forwarding company in Mersin, Turkey with our expert staff. These efforts have resulted in success and the growth of the Ceha Group companies. For long we have special contracts with carriers since we are also on the shipper side. We are also opening a new Istanbul branch office in January 2023 and in this way we'll enhance and strengthen our existing quality and relations in that area.
